Use of the Whip Data Tables

Researched & Compiled By Dene Stansall

Report Scope, Terms and Criteria

This examination into the Use of the Whip in British horse racing was undertaken during October and November 2003.

Data was collected from 161 races run on 20 racecourses.

Three British horse racing disciplines were covered:

All Weather Racing - AW

Flat Racing - Flat

National Hunt Racing - NH

The National Hunt discipline included: Hurdling, Chasing and NH Flat racing.

The 20 racecourses were selected to give a balanced representation of the varied conditions encountered by horse and rider: i.e. Left Handed L-H course; Right Handed R-H course; Figure 8 course; undulating surface; sharp/tight track; a galloping surface.

AW Lingfield • AW Southwell • AW Wolverhampton • Flat Ayr • Flat Brighton • Flat Catterick • Flat Newmarket • Flat Redcar • Flat Windsor • Flat Yarmouth • NH Lingfield • NH Haydock • NH Huntingdon • NH Ludlow • NH Market Rasen • NH Newton Abbot • NH Plumpton • NH Uttoxeter • NH Warwick • NH Wetherby

The Ground Conditions at the racecourses included:

Firm; Good to Firm; Good; Good to Soft; Standard Fibresand; Standard Polytrack (although the artificial surfaces varied in their give and holding).

Races studied included all Classes: A, B, C, D, E, F, G, H.

And they included: Sellers; Claimers; Conditional / Apprentice Jockeys; Amateur Jockeys; Maidens; Nurseries; Handicaps; Novice; Classified Stakes; Listed; Groups 3, 2 and 1.

Race distances (approximate) miles and furlongs - m f - included:

AW: 5f; 6f; 7f; 1m; 1m 2f; 1m 4f; 1m 7f.

Flat: 5f; 6f; 7f; 1m; 1m 1f; 1m 2f; 1m 3f; 1m 4f; 1m 6f; 2m.

NH Hurdles: 2m; 2m 1f; 2m 2f; 2m 4f; 2m 5f; 2m 6f; 2m 7f; 3m; 3m 1f; 3m 2f.

NH Brush Hurdles: 2m.

NH Chases: 2m; 2m 1f; 2m 2f; 2m 4f; 2m 6f; 3m; 3m 1f; 3m 2f.

NH Flat: 2m; 2m 1f; 2m 2f.

NH AW Flat: 2m.

The 161 races covered featured 2 to 19 runners.

Horses' age range in years covered: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14.

A total of 285 jockeys were studied.

AW: 120

Flat: 116

NH: 135

86 riders were included in both AW and Flat.

1,500 horses and thus jockey rides were examined.

Races were split into three sectors for the study: Start (s), Middle (m) and Finish (f).

Examples: 6f race = start 0 to 2f; middle 2f to 4f; finish 4f (2 out) to winning post 6f.

2m Chase 13 fences = start: 0 to 3rd fence +; middle: 4th fence to 11th fence; finish: 3 fences out to the line. Individual race data was proportioned to the three sectors and viewed as a whole, and also as part of an overall compilation.

Abbreviations

Race Conditions:

Con. = Conditional Jockeys; **Ap.** = Apprentice Jockeys; **Am.** = Amateur Riders; **Hand.** = Handicap;
Maid. = Maiden; **Nov.** = Novice; **Juv.** = Juvenile; **Nur.** = Nursery; **F & M** = Fillies & Mares;
Sell. = Selling; **Claim.** = Claiming; **Au.** = Auction; **St/Stk** = Stakes; **List.** = Listed; **Grp/G** = Group

Race Distance:

m = mile; **f** = furlong; i.e. 1 mile 4 furlongs/1m 4f

Finish Ps:

Finishing Position of the horse in the race as in the official form record

When Wh:

The stage of the race where the horse was whipped:

s = start of the race; **m** = middle of the race; **f** = finish of the race

NB not to be confused with race distance in miles and furlongs i.e. 1m 2f
Further details on this can be found in the Scope, Terms and Criteria section.

No. Whips:

Number of whip strikes to the horse that were counted

At the base of the No. Whips column, three figures are given

The first is for the number of horses whipped, the second for number of times they were all whipped, the third for the number of runners in the race, i.e. 10//29//13 ten horses were whipped, 29 times, from 13 runners.

Sho/Whip:

If the horse was shown the whip during the race, the data is displayed as: sw.

If the horse was not shown the whip a blank space is left.

Shown the whip is also interpreted as a tap down the shoulder/neck hands on the reins.

It is to be noted that, although a horse is shown the whip, the horse may not have necessarily been shown the whip before being hit for the first time.

At the base of the Sho/Whip column a total is given for the number of horses shown the whip to the number of runners in the race, i.e. 9//13 nine horses shown the whip from thirteen runners.

Comments: McCarthy dropped hit whip in the process of hitting Star Of Normandie, he continued to hit the horse with his hand.

Labrett was hit in the face with a whip by another jockey, which stopped his run through this probably lost Labrett - the favourite - the race.

Sir Jasper having his first race will remember the poor experience.

Bookiesindexdotcom's experience should not have been an excuse to hit her.

Gibbons hit his horse down the neck.

Allan struck his filly eleven times in the straight.

Comments: Kelly had a high arm action in his whipping, whilst Edmunds, Norton and McCabe all hit their horses down the neck. However, what stands out in this race is the whipping of Teyaar by McCabe. His 21 strikes in this five furlong race is totally unacceptable and should have seen action from the stewards.

The winner was not whipped and claimer Laura-Jayne Crawford takes the credit.

Comments: Mernagh was harsh on Sir Jasper, having only his second run, with eight strikes of the whip coming much too late. Kelly struck his horse nine times with whips throughout this six furlong race. Fletcher struck his horse seven times, including twice down the neck.

For a two year old race a high number of whips were given. What is more, they came out very early on in the race and continued throughout. This will not help any horse's confidence for future races.

Kelly hit his horse nine times in the final two furlongs also using a high arm action. Enstone's horse was having her first run on a racecourse under rules and saw plenty of the whip with seven strikes.

Comments: Prolific winner Cold Turkey did not require ten strikes of the whip to get home first, but was given them by amateur Dehdashti.

Amateur Pemberton hit Peppershot totally out of the blue for no reason. He appeared to take his glove off and hit the horse down the neck, hand off the reins, without first showing the horse the whip or trying to push along with hands and heels.

The Stewards should have taken action on this.

Comments: A two year old nursery where 15 of the 17 were hit. The first two jockeys whipped in what would appear to be a harsh manner, with claimer Fox using his 13 times, of which nine strikes were in the last two furlongs. O'Neill struck his horse eight times in the final two furlongs, of which one was down the neck. Havlin also struck his horse down the neck. A poor race seeing whips used to their maximum on two year olds.

Comments: An appalling apprentice race with a disturbing use of the whip from these young jockeys.

Every horse was hit.

McGaffin was particularly excessive, with 17 strikes, including one down the neck with hands off the reins. His horse also received a strike across the face from Turner as she went to use her whip on her mount. These jockeys require tuition on correct use of the whip and should not be allowed to strike their horses in this manner. Racing's ruling body should look at this and act for the welfare of horses who have to endure such beatings.

2m 2f 3//23//4 3//3

Comments: Moore hit his horse 20 times in this conditional jockeys race. He did not set a good example, with ten hits from the last two fences. Earlier in the race he hit the horse with his right whip hand and the horse moved left and hit the rail. Moore hit the horse again with the whip in his right hand a couple of strides later. This is alarming to say the least. The horse jinked away from the whip significantly on the run-in. The mare clearly did not respond to being hit and looked distressed when whipped.

Comments: All conditional jockeys and a minimum use of the whip.

Despite Nip On being tailed off for most of the race and Gabla barely getting the trip, the whip was not used as a threatening tool to get the most out of these horses.

The jockeys' peers could learn from this.

Comments: Dobbin clearly hit his horse down the neck with his hands off the reins. This happened in front of the stands and in view of the stewards. He also hit Hurricane Bay eight times from the last two hurdles, as did McGrath on his horse. Hurricane Bay was tongue tied. Conditional jockey Spate held his horse together, showing a skill lacking amongst many professionals. The stewards at Wetherby should have looked into Dobbin's use of the whip, and failed in their duty, yet again, to enforce the rules of racing.

Comments: An unusual NH Flat race run on an All Weather track.

The majority of these horses were seeing a course for the first time.

An appalling race where all of these young horses were hit.

Johnson hit his horse down the neck twice with hands off the reins and

Murphy hit his horse down the neck early on in the race.

Morgan hit his horse when he was clearly out of contention on the turn into the straight and to the line. A word from the stewards should have been given.

Comments: Ruby Walsh gave Howdydoody far too much whip.

Raising his arm high above his shoulder, he struck the horse six times down the neck with his hands off the reins. He was at the horse from the fourth until the end of the race. His arm action on his backhand strokes was over the shoulder. From an experienced jockey, at the fore in his profession, this was severe treatment of an animal who gives him his living. In our view, the stewards should have punished him severely. During the study, this was one of the worst cases recorded. What is more, the horse had not been out for 244 days. He was clearly under pressure and whipping down the shoulder could get no response. Why was this done? The whole of the race comes into question with, not only Walsh, but McCoy and Durak on the run-in and Robert Thornton with 13 strikes during the race, plus Johnson after the final bend, when his tired horse was hanging his tongue out, he was whipped with full force. Just because these horses are experienced handicappers, there should be no excuse to beat them to the line when the handicapper has done a good job in assessing their abilities.

Stage Of Race Where A Horse Is Whipped Data

Data covers the Three Disciplines and a Total of the Three Disciplines

Stage Of Race Where A Horse Is Whipped

AW

Stage of race when Whipped
 No.Horses Winning Horses
 No. Races whipped

Start s	8	1	35
Middle m	141	6	35
Finish f	293	31	35
Not Whipped		4	35

NB A horse can be whipped in any stage of a race i.e. at the start, in the middle, or at the finish. Therefore, a horse could feature in one or more columns, and, if he won, would appear in "winning horses" twice. This could not apply to horses not whipped that won.

The table below focuses on the 1st and 2nd finishing positioned horses in a race, and compares the number of times each was whipped, or not. The horse whipped the least is given as won, the horse whipped the most is given as lost. A draw is an equal amount of whips, or if neither are whipped.

		Least Whip.	Most Whip.	Equal Whip.	Races
Of 35 Race Winners	1st Horse	17 won	14 lost	4 drawn	35
Of 35 Race Seconds	2nd Horse	14 won	17 lost	4 drawn	35

Not Whipped		7	52

NB A horse can be whipped in any stage of a race i.e. at the start, in the middle, or at the finish. Therefore, a horse could feature in one or more columns, and, if he won, would appear in "winning horses" twice. This could not apply to horses not whipped that won.

The table below focuses on the 1st and 2nd finishing positioned horses in a race, and compares the number of times each was whipped, or not. The horse whipped the least is given as won, the horse whipped the most is given as lost. A draw is an equal amount of whips, or if neither are whipped.

		Least Whip.	Most Whip.	Equal Whip.	Races
Of 52 Race Winners	1st Horse	25 won	18 lost	9 drawn	52
Of 52 Race Seconds	2nd Horse	18 won	25 lost	9 drawn	52
